

## Asti Infotech Featured in Innovative Zone Magazine!

There's nothing more satisfying than being recognized for the work we do! While our automation and optimisation products have been making customers happy across the globe, being recognized as one of the 'most trusted companies for 2022' by Innovation Zone Magazine has made us proud of how far we've come. Accolades and recognition like this encourage our team to innovate & expand our horizons.

### Excited About Some New Partnerships with Business Stalwarts!

Co-browsing tool for employee verification as well as document verification

Uses **Imprint** for field force monitoring.

**Trakom** school Bus monitoring solution and fleet management solution **VTMS**

Uses **Imprint** Field Force Monitoring tool to track progress of field resources visiting Petrol stations for audits and selling fuel cards.

Employs **Imprint's** superior workforce automation capabilities to keep an eye on daily activity of field agents working on collections, customer on-boarding, product selling and loan verifications, etc.

### Team Asti Celebrates Festive Season with Great Fervor & Enthusiasm

August has been a month of festivities and celebrations, so how could our team be left behind! With Vat Savitri, Rakshabandhan, Independence Day and Janmashtmi all falling in the same month, everyone dressed up in their ethnic best and showcased their hidden talents as well!! We don't just create tech products, but also use them to add colour to our celebrations – thanks to an online Ethnic Day celebration session, even those not present in Bangalore participated with equal enthusiasm through their screens!
